## SUMMARY

---

I am a passionate and enthusiastic **software developer**. I am always looking to expand my knowledge and experience with the goal of creating useful and user-friendly software. Through my studies and my work experiences I have acquired a notable knowledge in the field.

My project management skills enable me to leverage best practices to consistently meet even the most aggressive of timelines. I'm not afraid of challenges, on the contrary, I think of them as a good source of motivation. I think on my feet and adapt easily to change.

I have **excellent communication** skills and I work well with others, as part of a team. I am very comfortable speaking before crowds or giving lectures.

## COMPUTER SKILLS

---

I think outside the box, I'm a **good problem-solver** and my **diversified skill** set makes me an excellent candidate as a **full stack developer** or a great asset as a Back End or Front End developer. I'm a **fast learner**, **versatile**, and I can easily adapt to any platform or architecture.

Portfolio @ [ghiban.com/resume](http://ghiban.com/resume)

- **Mobile:** Android Applications, Unity3d Games
- **Server side:** Apache, Ubuntu server, Linux, vSphere, VMware, Virtual Box, Virtualmin, Odoo (OpenERP)
- **IDE:** Visual Studio, IntelliJ, Adobe CC, Eclipse, etc.

## EXPERIENCE

---

**JANUARY 2009 - PRESENT** Application Developer, *Freelance*

Other than my academic and work experience I have had the opportunity to freelanced for multiple projects. My customers were academic institutions, independent professionals and small businesses. [View my portfolio](#) for details.

- **"Bad-News" web application @ McGill University – Front End**
  - Create a web application to allow medical students to learn and practice giving bad news to patients by recording themselves and getting feedback from other students or teachers. **Tools: Node.js, Express.js, Bootstrap, AngularJS, MongoDB**
- **Admissions site for the Faculty of Law at University of Montréal – Full Stack**
  - My mandate was to review and update the code because the stability of the server was compromised by faulty code and to update the user interface to a newer look. **Tools: Linux, JSP, GlassFish Server, PHP, MySQL, Bootstrap**

- **Web developer – multiple projects**

- Build multiple websites for customers and myself. Maintain a network of affiliate marketing websites for hosting and software solutions. **Tools: WordPress, Drupal, PHP, JavaScript, MySQL, jQuery, Ajax, CSS3 Bootstrap. Google SEO tools (Analytics, AdWords, AdSense).**
- Local deployment of Odoo (Open ERP) servers for small businesses and data transfers. **Tools: PHP, PostgreSQL, MySQL, JavaScript, jQuery, CSS3**

JANUARY 2014 -  
APRIL 2016 Undergrad Teacher Assistant, *University of Montréal*

The job consisted of giving a two hours' practical class following the teacher's theory class. My role was also to **help the students** with the homework and answer their questions through emails or on the forum. It was also my responsibility to **grade the software** the students would submit as homework and give them recommendations on how to **improve the quality of the code**. These requirements forced me to remain updated with new technologies and better understand and **debug** faulty code. It also improved my ability to **give lectures** and to **talk to a crowd**.

NOVEMBER 2011 -  
SEPTEMBER 2013 Account Executive, *Ingram Micro*

During my employment, I was required to maintain a lucrative **business relationship** with multiple SMB customers on the Quebec territory. My tasks were to help customers **make strategic purchase decisions**, help them negotiate purchasing contracts, **find new business opportunities** and buffer communications between them and the manufacturers.

SEPTEMBER 2010 -  
APRIL 2011 Office Support Clerk, *Public Works and Services Canada*

I've gained a lot of experience during this contractual student position. It allowed me to gain experience working in an office and how to **prioritize administrative tasks**. Amongst other responsibilities, I had to do **follow-ups** on purchasing contracts, generate **reports**, schedule **meetings** and verify documentation. My advanced knowledge of the **Office Suite** was very useful.

FEBRUARY 2004 -  
AUGUST 2009 Customer Representative, *Bell Express vu*

My first job out of college was as a **technical support** agent for the satellite television customers. My tasks consisted of **helping customers** with the installation and configuration of the system and troubleshoot technical issues.

## EDUCATION

---

In **June 2016**, I completed a **Bachelor of Science (B.Sc.) at the University of Montreal** with a field of study including **e-commerce management** and **applied computer sciences**. I am proud to say that I completed my computer science classes on the **honor roll** with a stunning **4.3 GPA**. During my tenure as a student, I've also attended classes in **management, psychology, communication** and **marketing**.

June 2016 **B.Sc. Bachelor of Science, University of Montréal**

June 2016 **Certificate of individual studies, University of Montréal**

February 2015 **Certificate of Applied Computer Science, University of Montréal**

August 2011 **Certificate of E-commerce management, HEC Montréal**

## LANGUAGES

---

I am fluent in English, French and Romanian. I am currently learning Spanish.
